

**SPECIAL REPORTS****Impact of Sustainability on the Fertilizer Sector**

## Table of Contents

A Report by **NexantECA, Inc.**

Published Date: November 2020

[www.nexanteca.com/subscriptions-and-reports](http://www.nexanteca.com/subscriptions-and-reports)**Contents**

1	Executive Summary .....	1
1.1	Introduction.....	1
1.2	Key Sustainability Issues Driving Change.....	1
1.3	Sustainability Effects on Demand .....	2
1.4	Potential Solutions.....	2
1.4.1	Sustainable Feedstocks .....	2
1.4.2	Sustainable Manufacturing Technologies .....	4
1.4.3	Sustainable Product Development.....	5
1.4.4	Sustainable Transport .....	6
1.5	Case Studies of Sustainable Activities.....	7
1.6	Roadmap to Sustainability in Fertilizer.....	8
2	Introduction.....	9
3	Key Sustainability Issues Driving Change.....	12
3.1	Introduction to Sustainability .....	12
3.2	Sustainability Drivers.....	12
3.2.1	Carbon Emissions .....	12
3.2.2	Nutrient Leaching and Water Pollution.....	13
3.2.3	Population Growth and Sustainable Agriculture .....	13
3.2.4	Exploitation of Fossil Resources .....	14
3.2.5	Waste Accumulation.....	14
3.3	Industry Resources for Targeted Improvement .....	14
3.3.1	UN Global Compact and Sustainable Development Goals.....	14
3.3.2	4R Principles for Nutrient Stewardship .....	16
4	Sustainability Effects on Fertilizer Demand.....	18
4.1	Impact of Coated Fertilizer Use.....	18
4.2	Impact of Government Regulations.....	19
4.2.1	India.....	19
4.2.2	China .....	19
4.2.3	Europe.....	20
4.2.4	Africa .....	20
4.3	Impact of Organic Fertilizer Farming.....	21

4.4	Nutrient Recycling .....	23
4.5	Drones in Agriculture .....	23
5	Potential Solutions.....	25
5.1	Sustainable Feedstocks .....	25
5.1.1	N: Ammonia and Urea.....	25
5.1.2	P: Phosphate Fertilizers .....	34
5.1.3	K: Potassium Fertilizers.....	37
5.2	Sustainable Manufacturing Technologies .....	39
5.2.1	Nitrogen .....	39
5.2.2	Phosphorus .....	56
5.2.3	Current Sustainable Manufacturing Activity .....	73
5.3	Sustainable Product Development.....	74
5.3.1	Background and Overview .....	74
5.3.2	Sustainable Product Development Solutions .....	76
5.4	Sustainable Transport .....	85
5.4.1	Sustainable Transportation Methods .....	86
5.4.2	Sustainable Fuel Selection.....	87
5.4.3	Key Findings.....	89
6	Case Studies of Sustainable Activities in the Fertilizer Sector.....	90
6.1	Introduction to Case Studies of Improving Sustainability in the Fertilizer Sector.....	90
6.2	ICL.....	91
6.2.1	Introduction to the Company .....	91
6.2.2	Select Sustainability Activities.....	91
6.2.3	Conclusions.....	93
6.3	Mosaic .....	93
6.3.1	Introduction to the Company .....	93
6.3.2	Select Sustainability Activities.....	93
6.3.3	Conclusions.....	94
6.4	Nutrien.....	95
6.4.1	Introduction to the Company .....	95
6.4.2	Select Sustainability Activities.....	95
6.4.3	Conclusions.....	96
6.5	OCP(,,54) .....	96
6.5.1	Introduction to the Company .....	96
6.5.2	Select Sustainability Activities.....	97
6.5.3	Conclusions.....	98
6.6	Yara.....	98
6.6.1	Introduction to the Company .....	98
6.6.2	Select Sustainability Activities.....	98
6.6.3	Conclusions.....	100
6.7	Industry-wide Research & Development Spending .....	100
6.8	Learnings from Tangential Industries.....	101
7	Conclusions and Recommendations.....	102
7.1	First Steps .....	102
7.2	Sustainability Improvements across the Value Chain.....	103

7.2.1 Feedstock ..... 103

7.2.2 Manufacturing ..... 103

7.2.3 Product ..... 104

7.2.4 Distribution ..... 104

7.2.5 Corporate Activity ..... 104

7.3 Long-Term Roadmap ..... 105

A References ..... 106

## Figures

Figure 1	Near Term Actions to Improve Sustainability .....	8
Figure 2	NexantECA Approach .....	10
Figure 3	Anticipated Global Population Growth .....	13
Figure 4	UN Global Compact Sustainable Development Goals .....	15
Figure 5	IFA 4R Principles for Nutrient Stewardship .....	17
Figure 6	Ammonia Volatilization versus Days after Fertilization.....	18
Figure 7	Global Share of Organic Farming, 2019.....	22
Figure 8	Drone Spraying Fertilizers in Field .....	24
Figure 9	Modern Sanitary Landfill.....	28
Figure 10	Diagram of Hydrogen Production via Electrolysis .....	30
Figure 11	Phosphate Fertilizer Value Chain .....	34
Figure 12	Global Ammonia Consumption by Application, 2019-e .....	39
Figure 13	Conventional Ammonia Production Routes.....	41
Figure 14	KRES™ Reforming Exchanger .....	43
Figure 15	KRES™ Technology Flow Scheme.....	44
Figure 16	Aramco and Institute of Energy Economics (Japan) Blue Ammonia.....	48
Figure 17	Synergy between SOEC and Fuel Synthesis .....	49
Figure 18	Ammonia Synthesis Gas Generation by SOEC .....	50
Figure 19	Thyssenkrupp Renewable Ammonia Process.....	51
Figure 20	All-electric Wind Powered Ammonia Unit.....	52
Figure 21	Arranged Dualtower.....	53
Figure 22	Ammonia Production via Biomass Gasification.....	55
Figure 23	Flow Diagram of the Dihydrate Wet Phosphoric Acid Process .....	58
Figure 24	Flow Diagram of the Hemi-dihydrate Recrystallization Process – Double Stage Filtration.....	62
Figure 25	Flow Diagram of the Thermal Phosphoric Acid Process .....	66
Figure 26	Possible Points of Recovery during Wastewater and Sewage Sludge Treatment.....	68
Figure 27	Source of Fertilizer Emissions, 2010 .....	75
Figure 28	Nutrient Use Efficiency .....	75
Figure 29	Nutrient Release in “Ideal Fertilizer” .....	77
Figure 30	Urea Formaldehyde Fertilizers Nutrient Release Process .....	80
Figure 31	Fertilizer Industry Supply Chain.....	85
Figure 32	Emissions Associated with Alternative Fuels .....	88
Figure 33	Comparison of R&D Spending by Sector .....	100
Figure 34	Near Term Actions to Improve Sustainability .....	102
Figure 35	Long-Term Roadmap to Sustainability .....	105

**Tables**

Table 1	UN SDGs and Considerations for the Fertilizer Industry.....	15
Table 2	Commercially Available Organic Fertilizers .....	21
Table 3	KRES™ Process Comparison.....	45
Table 4	Current Developers of Carbon Dioxide to Chemicals Technologies .....	47
Table 5	Distribution of Fluoride in Production of Wet Phosphoric Acid.....	64
Table 6	Typical Phosphorus Slag Composition.....	67
Table 7	Available P Recycling Processes for Fertilizers .....	68
Table 8	Advantages and Disadvantages of the Dihydrate Technology of the Wet Process.....	71
Table 9	Advantages and Disadvantages of the Hemihydrate Technologies of the Wet Process.....	72
Table 10	Selected Properties of SRFs and CRFs.....	78
Table 11	Carbon Emissions for Common Freight Methods .....	86

## SPECIAL REPORTS

The NexantECA Special Reports program is recognized globally as the industry standard source for information relevant to the chemical process and refining industries.

### Contact Details:

#### **Americas:**

Marcos Nogueira Cesar, Vice President, Global Products, E&CA: NexantECA Subscriptions  
Phone: + 1-914-609-0324, e-mail: mcesar@nexant.com

Erica Hill, Client Services Coordinator, E&CA-Products  
Phone: + 1-914-609-0386, e-mail: ehill@nexant.com

#### **EMEA:**

Anna Ibbotson, Director, NexantECA Subscriptions  
Phone: +44-207-950-1528, aibbotson@nexant.com

#### **Asia:**

Chommanad Thammanayakatip, Managing Consultant, Energy & Chemicals Advisory  
Phone: +66-2793-4606, email: chommanadt@nexant.com

NexantECA. (www.nexantECA.com) is a leading management consultancy to the global energy, chemical, and related industries. For over 38 years, NexantECA has helped clients increase business value through assistance in all aspects of business strategy, including business intelligence, project feasibility and implementation, operational improvement, portfolio planning, and growth through M&A activities. NexantECA has its main offices in San Francisco (California), White Plains (New York), and London (UK), and satellite offices worldwide.
