

# *Petroleum and Petrochemicals Economics Program: Petroleum Market Dynamics*

## *Feedstocks 2012*

Feedstocks 2012 is one in a series of reports published annually as part of the Petroleum and Petrochemical Economics program.

This report provides a comprehensive analysis of the key market issues expected to affect the future profitability of global refineries and the availability of petrochemical feedstocks.

To be Published: **December 2012**

## Table Of Contents

1. Introduction
2. Methodology
3. Petrochemical Feedstock Options
4. Shale Gas Expansions
5. Developments in Shale Oil
6. Bio-Based Feedstocks Progress
7. Hydrocarbon Supply
  - 7.1 Natural Gas
  - 7.2 Crude Oil
  - 7.3 Coal
8. Petrochemical Feedstock Profiles
  - 8.1 Global Overview
  - 8.2 North America
  - 8.3 South America
  - 8.4 Western Europe
  - 8.5 Central and Eastern Europe
  - 8.6 Middle East and Africa
  - 8.7 Asia

## Subscribing to Feedstocks 2012

Subscription to Feedstocks 2012 includes:

- One hard copy of the report
- 12 month access via the ChemSystems website, [www.chemsystems.com](http://www.chemsystems.com), to:
  - Unlimited downloads of soft copies
  - Interactive charts
  - Downloadable data in excel
- Consultation time with the project team
