

The **Technoeconomics – Energy & Chemicals (TECH)** program is globally recognized as the industry standard source of process evaluations of existing, new and emerging technologies of interest to the chemical and energy industries.

An annual subscription to the 2021 TECH program includes 20 reports covering the topics listed below..

Petrochemical Updates

- Butadiene/Butylenes
- Chlor-Alkali
- LDPE
- Methanol
- Nitrobenzene/Aniline/MDI
- Oxo Alcohols
- Polystyrene
- Vinyl Acetate

Special Topics

- Advanced Carbon Applications in Lithium-ion Batteries
- Advances in Depolymerization Technologies for Recycling
- Advances in Propane Dehydrogenation
- Ammonium Nitrate
- Amorphous High Temperature Engineering Thermoplastics
- Blue Hydrogen
- Carbon Monoxide
- EPDM
- Infrastructure for Collection and Recycling of Plastic Waste
- SAP
- Styrene Butadiene Rubber
- Sulfonation Technologies

NexantECA partners with clients to help them navigate the big global energy, chemicals and materials issues of tomorrow. We provide independent advice through our consulting, subscriptions and reports, and training businesses using expertise developed in markets, economics and technology through our fifty years of operation. We are entirely dedicated to supporting sustainable development of the industry and provide expert advice with efficiency, speed, and agility.
