

The **Technoeconomics – Energy & Chemicals (TECH)** program is globally recognized as the industry standard source of process evaluations of existing, new and emerging technologies of interest to the chemical and energy industries.

An annual subscription to the 2022 TECH program includes 20 reports covering the topics listed below..

Petrochemical Updates

- Acetic Acid
- 1,4-Butanediol/Tetrahydrofuran (BDO/THF)
- Bisphenol-A
- Ethylene Oxide/Ethylene Glycol
- High Density Polyethylene (HDPE)
- Polyethylene Terephthalate (PET)
- Propylene Oxide
- Polyvinyl Chloride (PVC)

Special Topics

- Acetylene Production Technologies
- Advances in Mechanical Recycling of Plastics
- Carbon Capture and Sequestration Technologies
- Developments in Flexible Packaging Design
- Emerging Technologies to Recycle Plastic Waste
- Hydrocarbon Resins
- Methane Pyrolysis for Turquoise Hydrogen
- Nylon 6, 6-6
- Polyester Polyols
- Polyphenylene Sulfide (PPS)
- Recycling of e-Waste
- Water Desalination Technologies

NexantECA partners with clients to help them navigate the big global energy, chemicals and materials issues of tomorrow. We provide independent advice through our consulting, subscriptions and reports, and training businesses using expertise developed in markets, economics and technology through our fifty years of operation. We are entirely dedicated to supporting sustainable development of the industry and provide expert advice with efficiency, speed, and agility.

**Disclaimer**

This Report was prepared by NexantECA, the Energy and Chemicals Advisory company. Except where specifically stated otherwise in this Report, the information contained here is prepared on the basis of information that is publicly available, and contains no confidential third party technical information to the best knowledge of NexantECA. Aforesaid information has not been independently verified or otherwise examined to determine its accuracy, completeness or financial feasibility. Neither NexantECA, Client nor any person acting on behalf of either assumes any liabilities with respect to the use of or for damages resulting from the use of any information contained in this Report. NexantECA does not represent or warrant that any assumed conditions will come to pass.
